

EARTH DAY

Ann, Anagha, Trisha, Shreya, Samara

The background features a dark green color with vertical stripes. In the corners, there are stylized Earth globes with green continents and blue oceans. A purple cloud outline is on the left, and a blue arrow points upwards from the bottom center. An orange question mark is on the right.

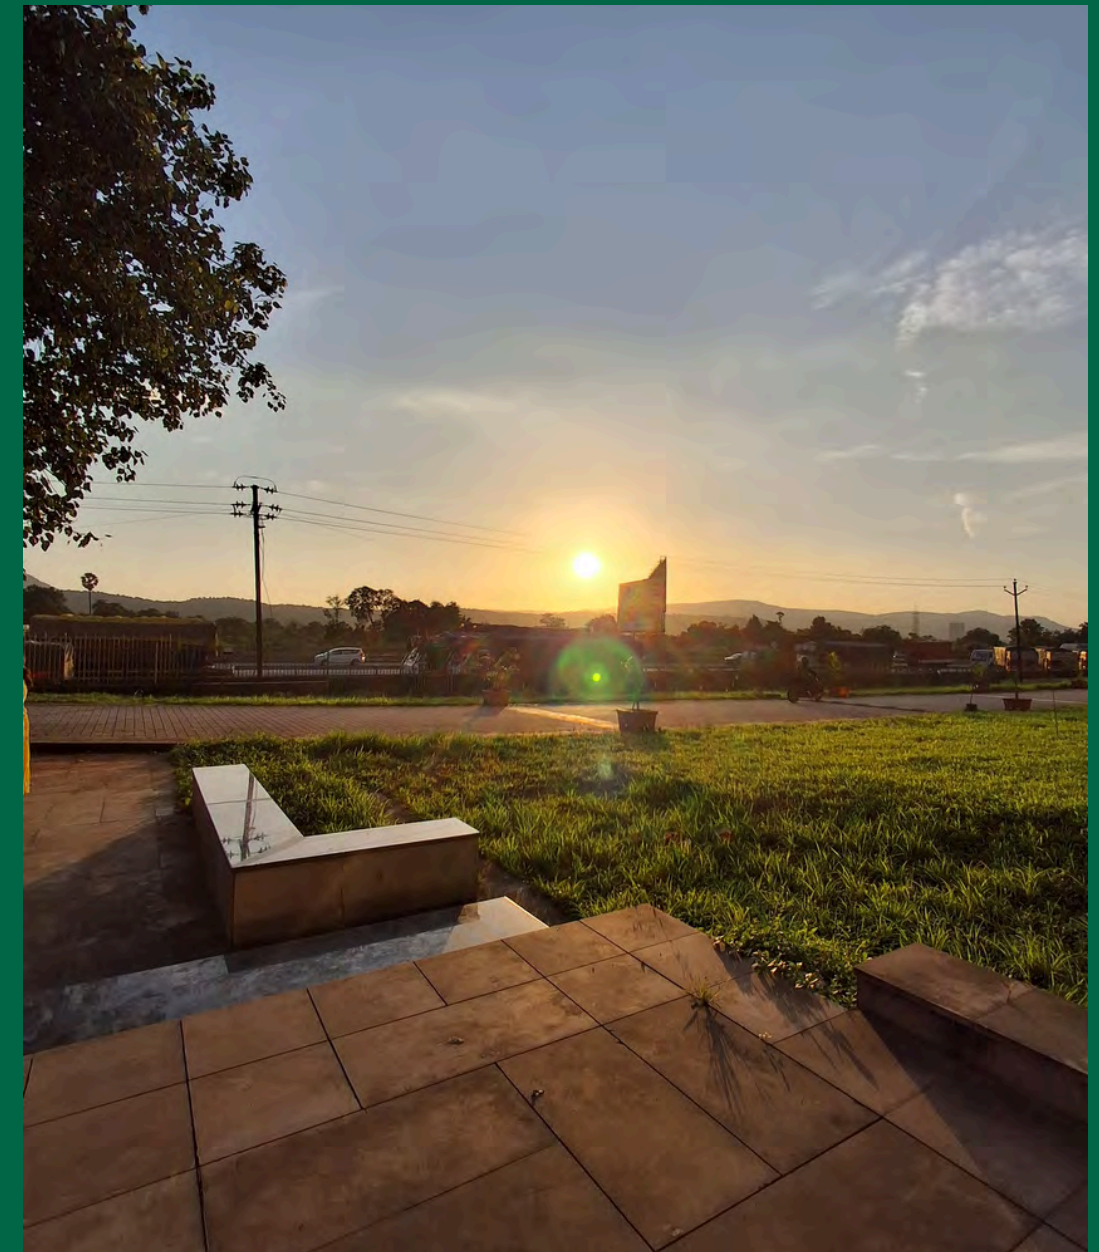

WHAT IS EARTH DAY?

Earth Day is celebrated every **April 22**.

It began in 1970 as a movement for environmental awareness.

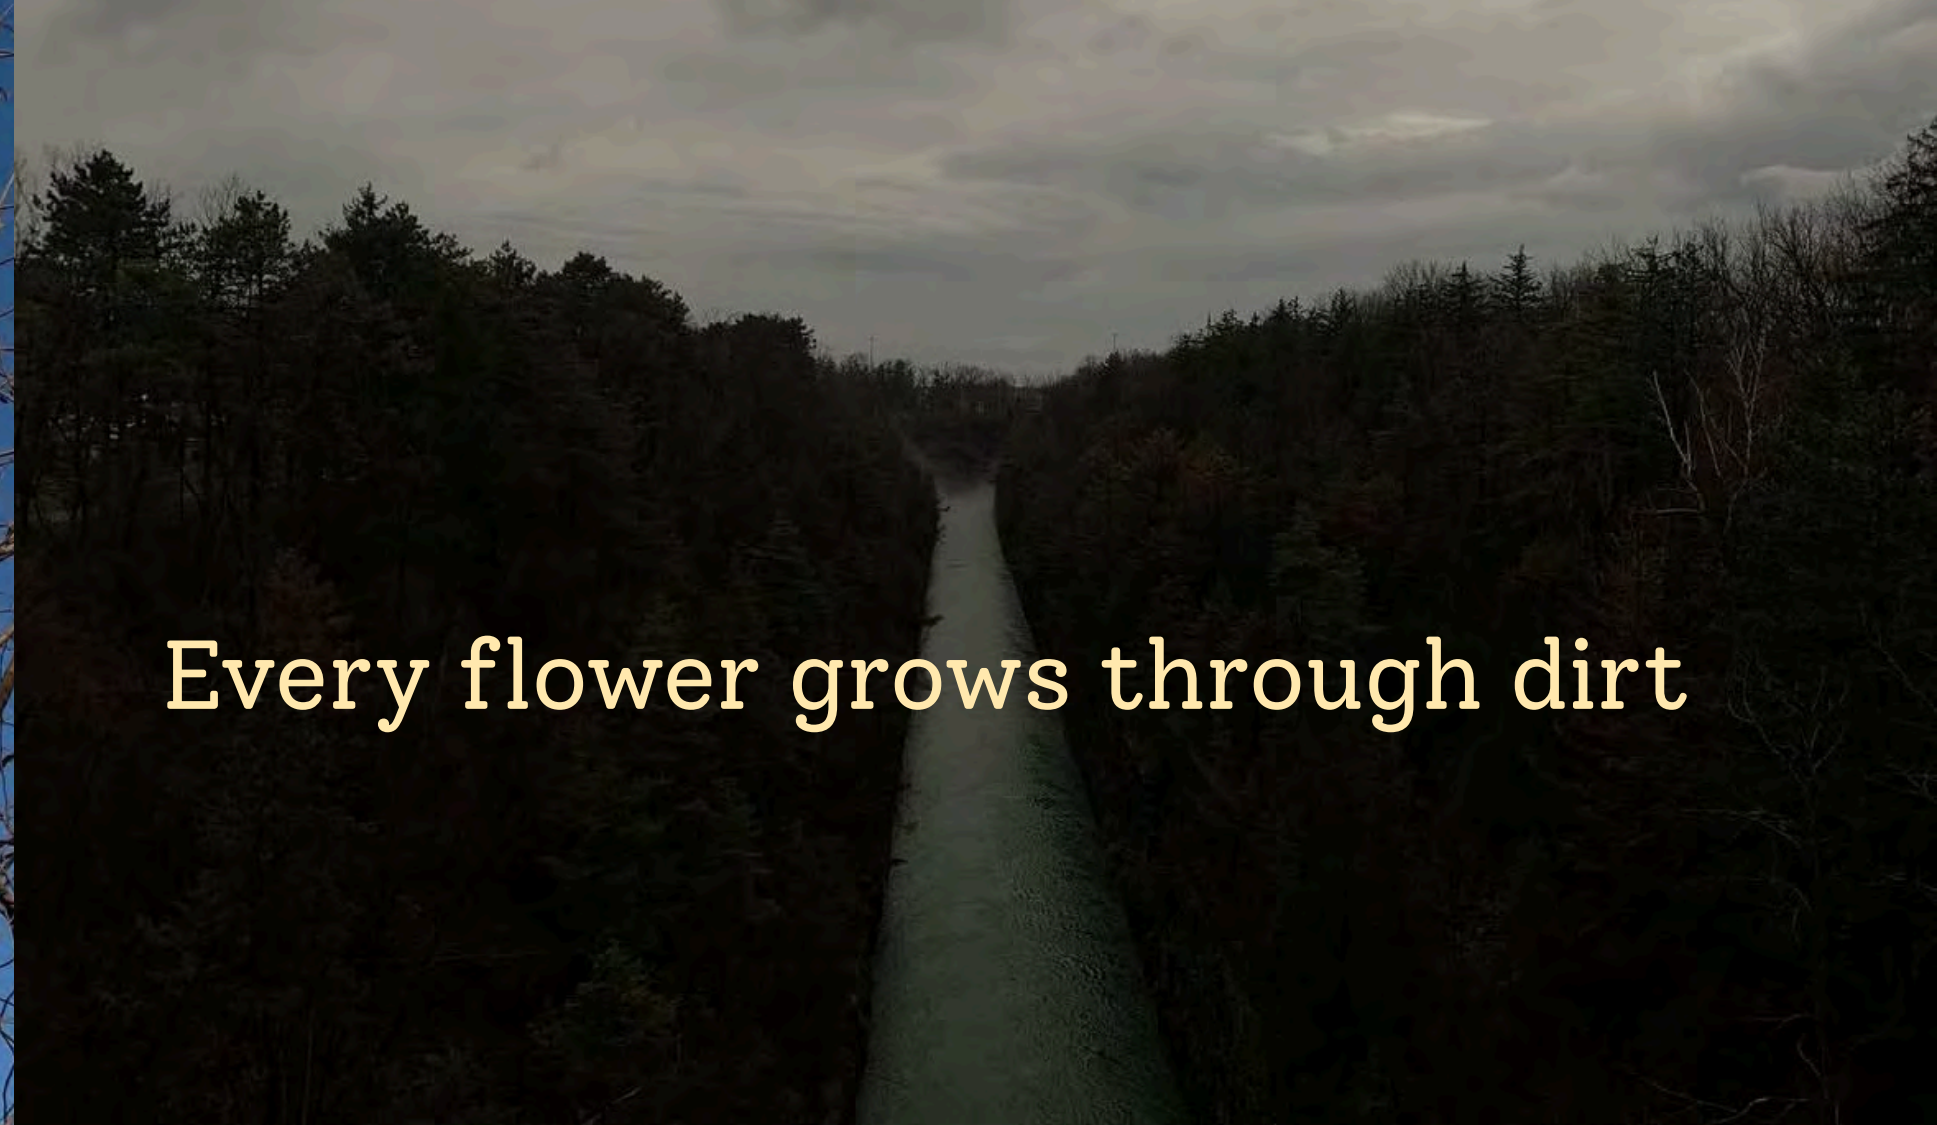

Now, it involves millions of people in over 190 countries.

The sky has never once asked to be admired, yet every living soul has stopped at least once to stare into it and feel something they could not name.

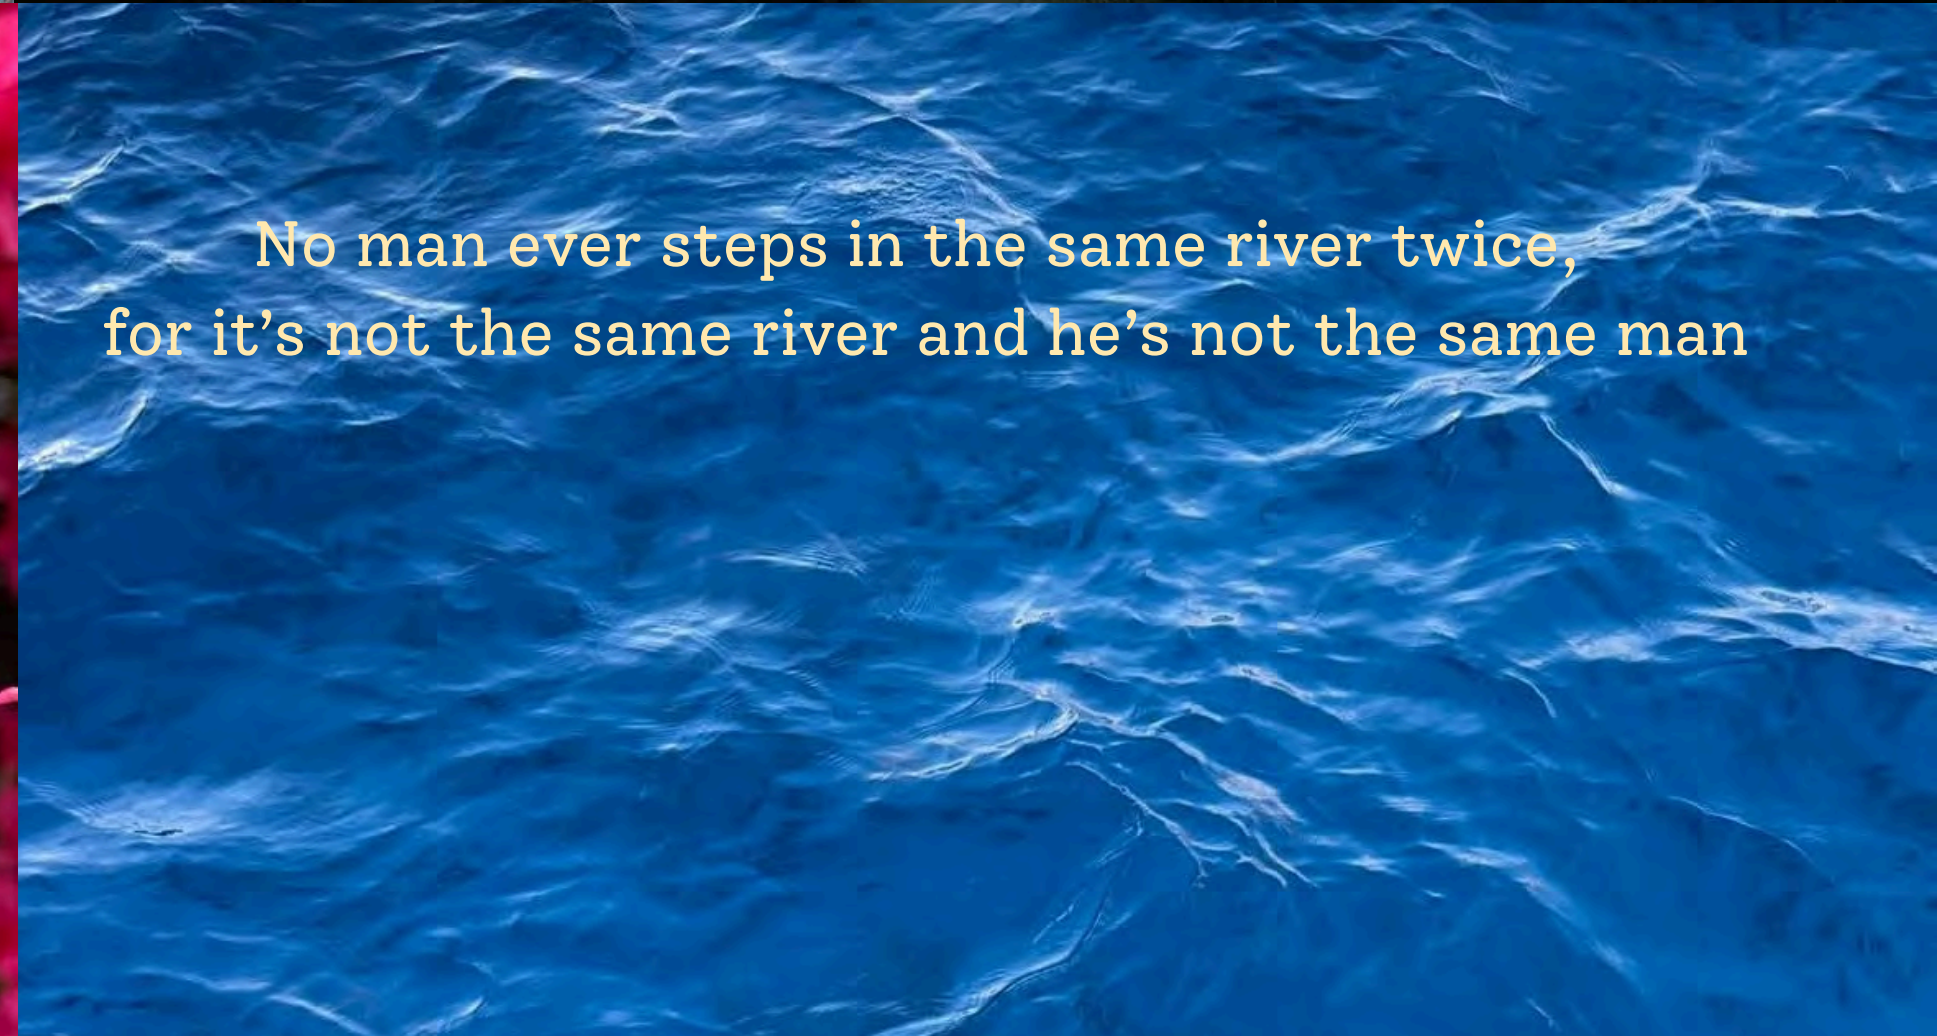

Every flower grows through dirt

No man ever steps in the same river twice,
for it's not the same river and he's not the same man

The sun does a kind of magic
that heals something inside
PEOPLE

Ann

COMMUNITITES AND MORE

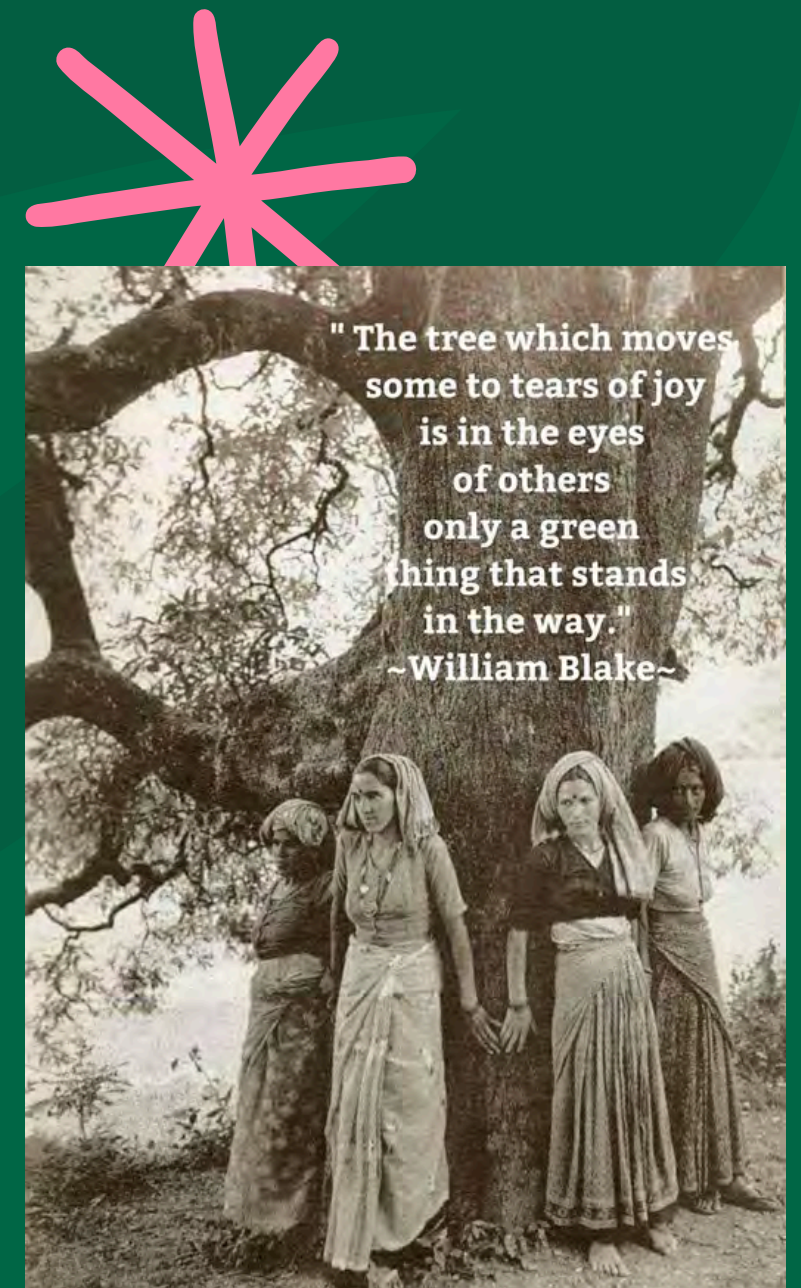

The Chipko movement is considered the first ecofeminist environmental movement that started in India in the 1970s to protect trees and forest areas from deforestation.

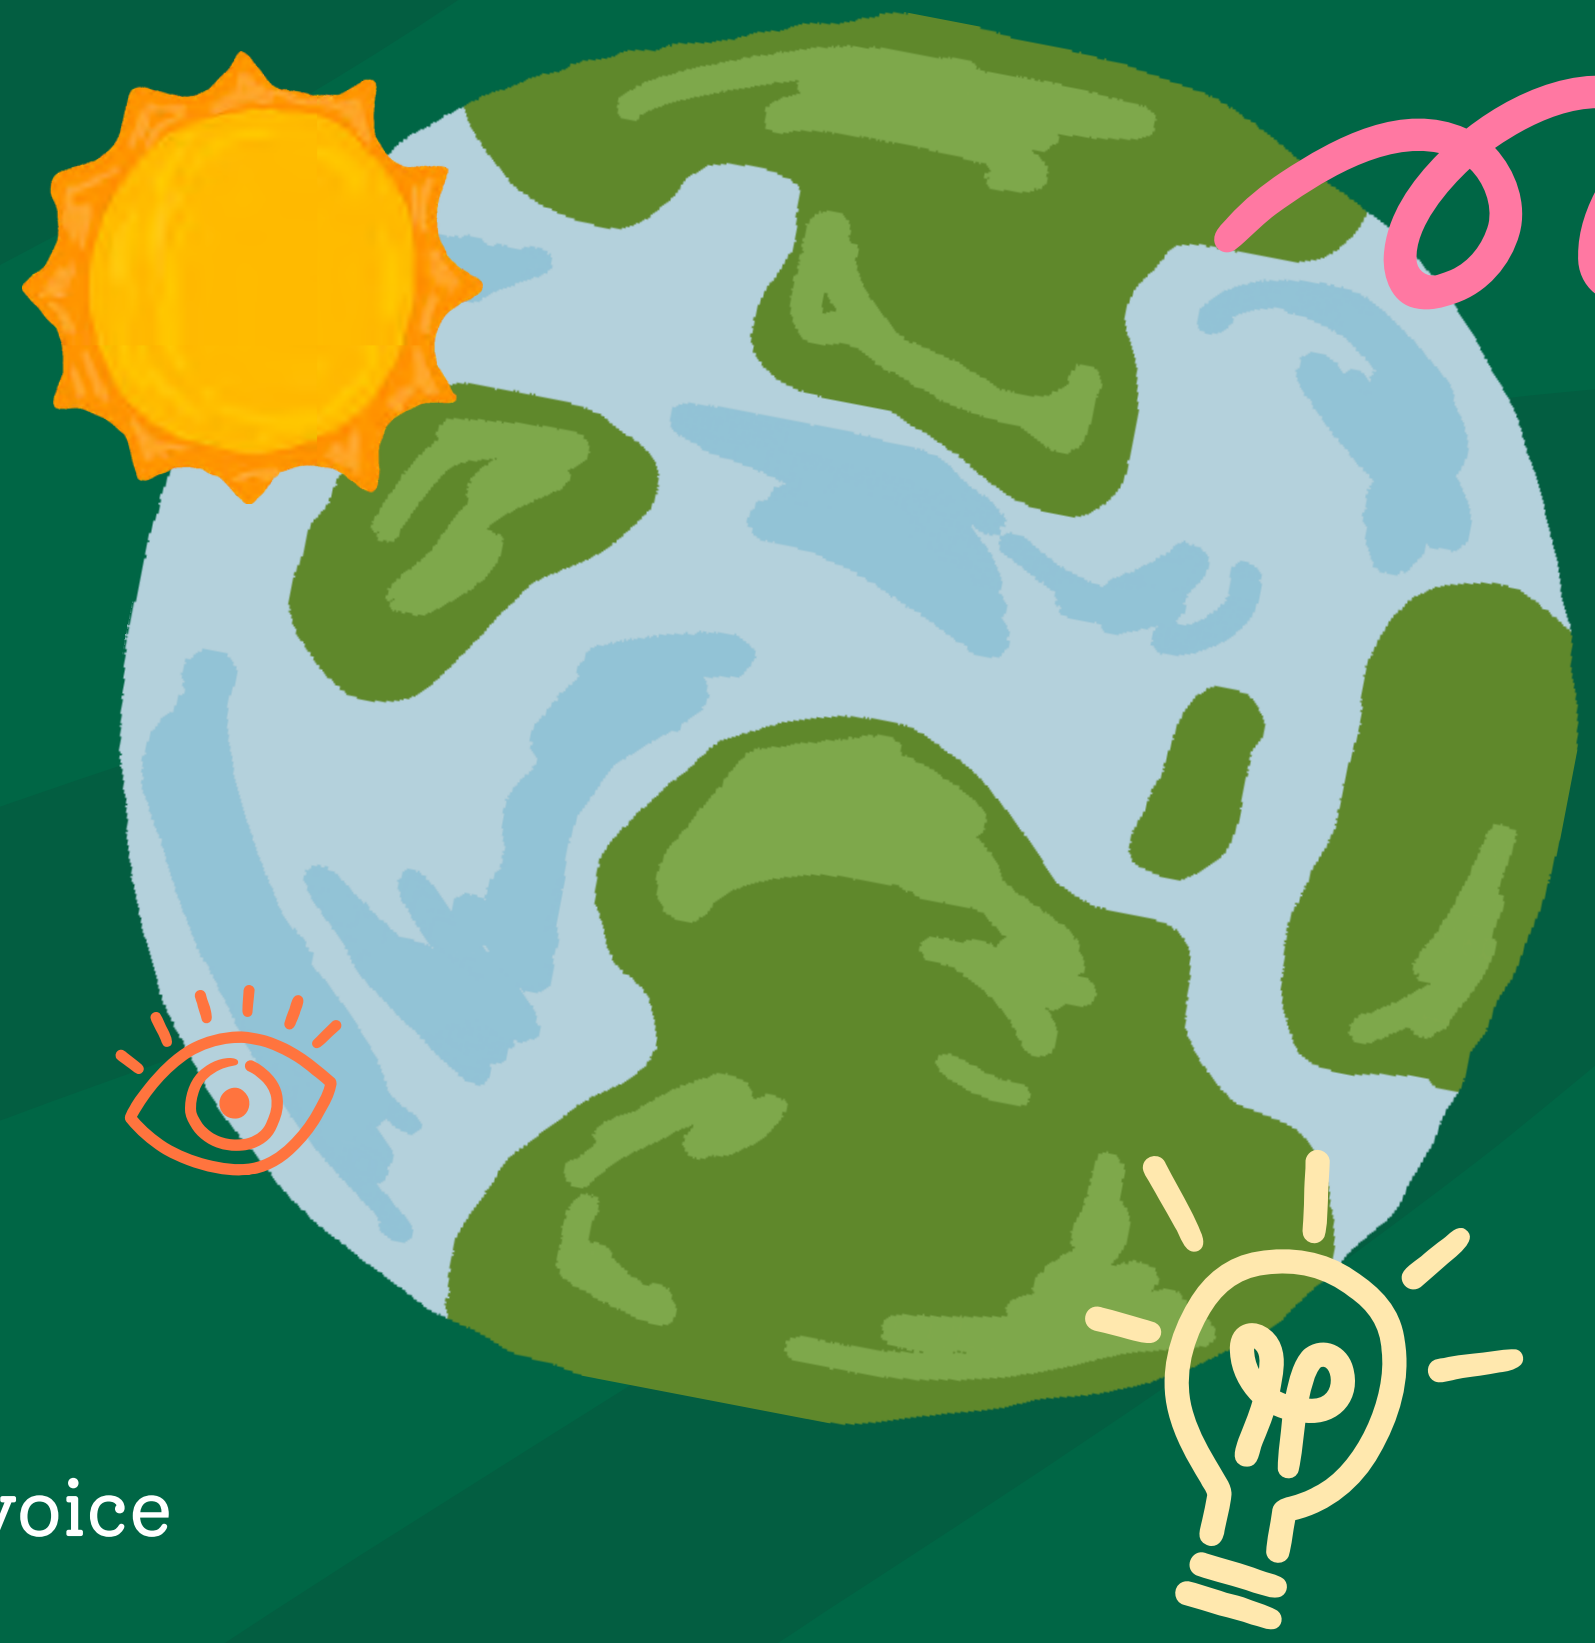

The name comes from the Hindi word "chipko", meaning "to cling" or "to hug", as the villagers embraced the trees to prevent them from being felled

The activism of those involved in the movement has had a lasting legacy on the way forests are managed in India and contributed to the global effort to preserve forests and other natural resources.

Support Nature-based Solutions that build biodiversity, climate resilience and wellbeing in cities.

BE PART OF THE CHANGE

① Start small, start today

② Join clean-up or planting events

③ Speak up and share your voice

④ Inspire others with your actions

This Earth Day, be the reason our planet smiles.

FINAL MESSAGE

We only have one Earth.

Let's take care of it – for us and for the future.

**“We don't inherit the Earth
from our ancestors, we
borrow it from our children.”**
